Data Protection Act 1998

This information is collected for the administration of GCC Road Safety Driver Assessment Services. It is held on confidential record by us. Your application will be passed on to a driving assessor for the purpose of arranging the assessment. If you have a query or concern regarding this, please contact the Road Safety Partnership on Gloucester 01452 425557.

Why assess drivers?

On an average day, eight people are injured in road accidents in Gloucestershire that is equivalent to one injury for every mile of road in this County each year. 95% of these accidents are caused by human error. Most of these accidents could have been prevented by an overall improvement in driving standards which is the reason for this assessment.

The assessment

This is based on common sense and safe, skilful, everyday driving. There are no trick questions or unusual manoeuvres, but you should read up on the Highway Code.

The assessor will be an experienced, qualified Professional Approved Driving Instructor employed by Road Safety, who has the experience of assessing the ability of drivers.

Each person who completes the assessment will be given a written report together with verbal feedback, plus a copy will be sent to your employer if applicable.

The 1 hour assessment will **cost £30.00** (cheques payable to 'Gloucestershire County Council'). Please call us if you wish to pay by credit/debit card.

The assessment will be arranged for a date and time to suit both driver and assessor, meeting at the most convenient place.

Please complete this part of the application form and return it to the Road Safety Partnership

Full Name _____

Address _____

_____ Post Code _____

Tel (H) (_____) _____

Tel (W) (_____) _____

Work Address (if applicable) _____

_____ Post Code _____

I would like my assessment to commence from my home/work address (delete as applicable).

Driver Licence Number
